PROFESSIONAL SUMMARY

Strategic **Full Stack Developer** with a BCA background and Practical experience through projects and internships in the **MERN stack**. Proficient in **NoSQL (MongoDB)** and a wide array of languages including **JavaScript**. Hands-on experience in building scalable Websites using **React** complemented by a **120-hour Power BI internship** for advanced data visualization.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js

Backend: Node.js, Express.js

Database: MongoDB

Programming Languages: JavaScript, Python
Tools & Platforms: Git, GitHub, VS Code, Postman
Data Visualization: Power BI, Matplotlib

EXPERIENCE

Intern in Python-Django | *InfoLabz IT Services Pvt.Ltd* *As Student May 2025 - May 2025*

- I completed a one-week internship at INFOLABZ IT SERVICES PVT. LTD. from 12th May 2025 to 17th May 2025, where I gained hands-on experience with the Django framework.
- During this internship, I worked on creating models and customizing the Django administration panel, which enhanced my understanding of backend development and web application structure.

Data Analytics in Power BI | *InfoLabz IT Services Pvt.Ltd* *Dec 2025 - March 2026*

- Gained hands-on experience in data analysis and visualization using Python (Matplotlib) and Microsoft Power BI.
- Developed interactive dashboards to improve data analysis and visualization efficiency.
- Applied data-driven approaches to derive meaningful insights.

MERN Stack Developer | *InfoLabz IT Services Pvt.Ltd* *June 2025 – Present*

- Experienced in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Skilled in creating REST APIs, responsive user interfaces, and managing databases.

EDUCATION

Gaytri Vidhya Vihar	**HSC** | 88.10 %	*March 2023*
President Institute	**BCA** | CGPA: 7.78	*July 2023 – Present*

PROJECTS

EvDriveX (Web Portal for Electric Vehicle): | *MongoDB, Express.js, React.js, Node.js*

- Developed a full-stack web application for electric vehicle management using the MERN stack.
- Implemented user authentication and authorization (User/Owner/Admin), including secure login and registration features.
- Built modules for EV listings, charging station management, and slot booking system.
- Designed and integrated RESTful APIs using Node.js and Express.js for efficient data handling.
- Managed and structured data effectively using MongoDB database.
- Created a responsive and user-friendly interface using React.js.
- Demonstrated strong skills in full-stack development, API integration, and database management.
- Improved user experience by designing a clean and responsive UI.
- Ensured secure data handling and efficient backend performance.
